

## Pet Application/Resume

### What can I include in a pet application/resume?

- Description of your pet's breed, age, activity level, and temperament
- Characteristics that make your pet suitable for city living
- Something special about your pet's personality
- Examples of your pet's good behaviour
- Obedience training, include certificates if available
- Flea and external parasite prevention
- Intestinal parasite prevention
- Whether your cat uses scratching posts or mats
- Where your pet will be kept on the property
- Vaccination status
- Desexing status
- References from your veterinarian and pet trainer
- References from previous landlords and/or neighbours
- Microchip and registration details
- Pet insurance or health insurance
- Photos of your pet
- Arrangements for taking care of your pet when you are at work or out of town
- If you have multiple animals describe how well they get along, and how they keep each other company when you're not home.

# Harry

The adorable Harry belongs to:  
John and Sarah Smith  
72 Vale St, Suburban Vale  
[Phone] 1234 1234  
[Email] smith@suburbanvale.com.au

## Description

Harry is a 4 year old Maltese Chihuahua cross. He is an obedient and well behaved dog and a much loved member of our family. Harry is accustomed to unit/apartment style living and will happily spend time relaxing inside or playing outside. Harry is friendly and well behaved and gets along well with other dogs/cats and children.

## Training

Harry attended puppy training school in 2013 at the Suburban Vale Dog Obedience School. He is house trained and is able to obey voice commences. Harry will give a short warning bark if strangers are approaching the house but in general does not bark excessively.

## Exercise

Harry is taken on a short walk every evening and loves going to the local off leash dog park for more vigorous exercise which we take him to about once a week.

Harry also loves running on the beach. These activities satisfy his exercise requirements, particularly seeing as he is a small dog.

## Health and Grooming

Harry is desexed and microchipped and is registered with the Suburban Vale Council. His vaccinations are kept up to date and he is taken for regular general health check-ups at our local vet.

Harry is combed regularly and he is professionally groomed every 3 – 4 months. Harry is given Comfortis Plus regularly which prevents fleas, heartworm and intestinal worms.

## About Us

We are responsible dog owners who always clean up after Harry and arrange for Harry to be looked after by family when we are on holidays. We are confident that Harry will make an excellent resident and are willing to sign a pet agreement as part of our lease.

## References

Our current landlord can be contacted on telephone 9871 9871. Attached is a letter of recommendation from Harry's veterinarian.

Thank you for your consideration of our application.
